

ALERTPBC is Palm Beach County's Emergency Notification System allowing you to opt in to receive notifications via phone calls, text messaging, email, and more based on locations you care about. You can choose to receive notifications about events that may affect your home, workplace, family's schools, and more.

HOW ALERTPBC WORKS

When we issue a notification about a potential safety hazard or concern, you will receive a message on the voice or text communication methods that you have registered. If requested for the notification, you can confirm that you have received the message and you will not be contacted by any subsequent methods regarding that particular notification. If you do not confirm, the system will continue to attempt to reach you at all of the contact paths that you have registered.

All information provided will be kept strictly confidential.

ALERTPBC offers two types of notifications: weather and county/city alerts.

WEATHER ALERTS

When we issue a notification about a potential safety hazard or concern, you will receive a message on the voice or text communication. Choose which weather hazards you would like to be alerted of. Only hazardous weather that is or will affect one of the addresses in your profile will be sent to you.
